MHS Study Hall Opt-Out Form

For the 2020-2021 school year, Mead High School is requiring ALL freshmen students to take a study hall during the fall semester as one of their eight required classes. Many freshmen enter high school not fully understanding how to balance their academics, extracurricular activities and responsibilities outside of school. We are taking a proactive approach to this obstacle and building study time into our students’ schedules to avoid any possible negative impacts to grade point averages or credits.

If your child has not suffered from academic issues in the past and you would like to opt your child out of having to take study hall their freshmen year, please complete the form below. However, please understand if any of the following issues occur during first semester he/she will be required to take study hall second semester:

1. Excessive absenteeism
2. Earning a D or F in ANY class, core or elective
3. Reported academic issues from any teacher

Please let a school counselor or administrator know if you have any questions regarding this policy.
